

BLUE PRINCESS

Economic high-quality cleaning gun

Powerful cleaning with less water

The Blue Princess is a cost-effective cleaning gun with many special qualities.

With its low weight and its compact dimensions, it is particularly easy to handle. The velvety soft rubber surface adds to the comfort.

The nozzle has the new revolutionary flat AKBO design, which provides a perfect spray pattern without dripping. Due to be exactly positioned nozzle tip, there is a very equal distribution of water, wherein with the trigger the shape of the jet can be changed easily from a wide cone to a narrow point. In addition, the orifice is dimensioned such that the gun uses at least **26% less water** than a regular cleaning gun. It also has a great cleaning power by its strong jet.

Despite its low weight and compact dimensions, the Blue Princess is extremely durable thanks to its rugged construction, sturdy hinge joints, strong materials and dual internal seals.

The Blue Princess is available in brass and stainless steel.
