

easywash365+ guns with swivels running in ball bearings

The choice of perfection

Perfectly suitable for any car wash application

Especially smooth-running!

LTF - Low Trigger Force 90 % reduced holding force and 40 % reduced trigger force against usual market guns.

LTF

360° swiveling

The well-proven high-pressure car wash guns now available with integrated swivels running in ball bearings

- High-quality, integrated maintenance-free swivel joint, corrosion-resistant and very smooth-running.
- Extra-long service life of connected hoses guaranteed by the swivel protecting the hoses from twisting.
- Convenient 360° handling in any cleaning application.
- Max. 310 bar / 45 l/min / 150 °C
- Gun inlet: 3/8" F, swivelling, gun outlet: 1/4" F
- All guns with integrated ball-bearing swivel also feature the proven Low Trigger Force technology and are available with weep and freeze stop option or as standard version.

High-quality stainless steel and nickel-plated brass: Inlet 3/8" F, outlet 1/4" F.
