

## TPTHR01

### Features/Benefits

- 316 Stainless Steel construction.
- Non marking blue rubber wheels.
- Robust and stable.
- Reduce trip hazards.
- The trolley protects hose from being crushed or damaged.
- Hose is kept neatly off the floor when not in use preventing wear and tear.
- The trolley allows the user to easily move around large facilities.
- Compliant with food safety standards.
- Hose reel manufactured by RM Suttner in Germany.

British manufactured stainless steel hose reel trolley with RM Suttner hose reel. An excellent combination for industrial cleaning in the food industry and fully compliant with food safety standards. Featuring hygienic design and materials that meet industry regulations.

#### 316 Stainless Steel Handle

Smooth non-porous, corrosion-resistant and easy to sanitise.

#### RM Suttner Hose Reel (SKU 73950)

Manufactured in Germany with maintenance free, chemical resistant synthetic side bearings.

Non marking wheels

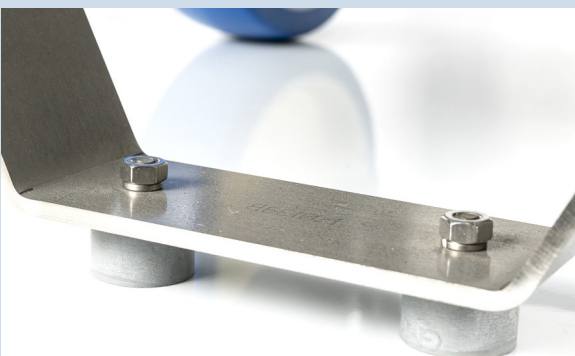

#### Industrial Wheels

Non marking heavy duty wheels for easier manoeuvrability.

#### Rubber feet

Non-marking rubber feet provide extra stability when the trolley is stationary.

Non marking rubber feet

Model	TPTHR01
Weight	24.26 kg
Dimensions (LxWxH)	(D)615mm x (W)471mm x (H)970mm
Material	316 Stainless Steel
Commodity Code	73269098
