

XWL 42.15 N code 21060

Technical features

AR Code	21060
Version	N
Max flow rate (l / min)	42
Max flow rate (gpm)	11:09
Max pressure (bar)	150
Max pressure (psi)	2200
Power (Hp)	16
Power (Kw)	11.8
Rpm (rpm)	1450
Weight kg)	16

Description

Alternative volumetric pump with 3 pistons for use on washing units and industrial systems. Possibility of direct connection or through coupling with elastic joint to different motor types. Pump body and covers in die-cast aluminum alloy. Side cover closed or with oil level. Rear cover with drain and oil level. Movement of the pistons realized through the system of the connecting rod - crank. Pump shaft in high resistance pressed steel. Oversized main bearings. Connecting rods in special zinc alloy - die-cast aluminum with anti-friction properties. Full ceramic pistons. Pump head in stamped brass. On request pump head in nickel-plated brass. Double seal sealing system. Valve plugs for both suction and delivery for better maintenance.
