

RK 15.20 + F38 cod. 21600

Technical features

AR Code	21600
Version	HYD
Max flow rate (l / min)	15
Max flow rate (gpm)	3.96
Max pressure (bar)	200
Max pressure (psi)	2900
Power (Hp)	7.5
Power (Kw)	5.5
Rpm (rpm)	1450
Weight kg)	9.2

Description

Alternative volumetric pump with 3 pistons for use on washing units and industrial systems. Pump body and covers in die-cast aluminum alloy. Rear cover with oil drain and oil level. Movement of the pistons realized through the connecting rod-crank system. Pump shaft in molded high-strength steel. Oversized main bearings. Connecting rods in special zinc alloy - die-cast aluminum with anti-friction properties. Possibility of bronze connecting rods. Full ceramic pistons. Pump head in stamped brass. Double seal sealing system. Possibility of different types of sealing systems according to the application. Valve plugs for both suction and delivery for better maintenance. Possibility to connect different regulating valves and accessories to the pump head.
